

Incident Response & Management

Applicable Roles: DEVOPS, DEVELOPER, PM

Severity Levels

P0: Critical - System down, revenue impact. Response: <5min

P1: Major - Feature broken for many users. Response: <15min

P2: Minor - Partial feature impact. Response: <1hr

P3: Low - Cosmetic/nice-to-have. Response: Next sprint

Incident Response Flow

1. Detect (monitoring alert or user report)
2. Triage - Determine severity
3. Respond - Assign incident owner
4. Mitigate - Stop the bleeding
5. Resolve - Apply fix
6. Post-mortem - RCA within 48 hours

Communication

- Post in #incidents Slack channel
- Update status page for user-facing issues
- Send updates every 30 min for P0/P1
- Formal post-mortem report for all P0/P1 incidents

Post-Mortem Template

What happened?

When did it start/end?

Impact (users affected, revenue loss)

Root cause
